

Destin AND Kimee

Dear friend,

"We cannot all do great things. But we can do small things with great love." ~Mother Teresa

"Love is the motivation for it all, and it was so from the beginning." ~Dallin H. Oak

We love these two quotes because we know love is essential to rear children successfully. Great love is what we feel growing inside us each day as we dream, talk about, pray, and prepare for our future baby. We can only imagine that love is what is also motivating you to make this difficult decision. Kimee has dreamed about becoming a parent since she was 11 years young. All she ever wanted to be when she "grew up" was to be a wife and a mother. However, she found out in 2017 that she is unable to have biological children. This news brought great sadness, but she was also comforted by great hope to continue to grow our family through adoption.

We continue to pray every day for our future baby and you. We trust God and we have seen His hand in multiple ways and times in our lives. If we are chosen as adoptive parents for your child, we know we are all in His hands in this process. We would be filled with unexplainable gratitude to you for your gift to us and helping dreams come true.

Thank you for taking the time to consider us in this process.

OUR STORY

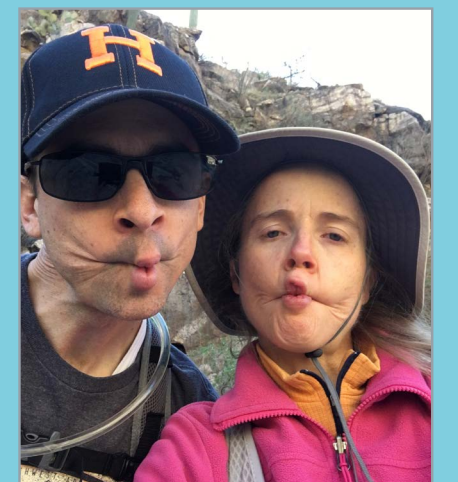

Our life started together when a dear mutual friend introduced us. We met for the first time on August 3, 2017, which was the start of a wonderful journey of deepening eternal love and adventure. We quickly became best friends and on August 11, 2018, Destin proposed to me in the most creative and fun way. We were married in December 2018. We continue to grow in love and truly are grateful to God for our wonderful life.

We LOVE spending time together: Hiking (small or large like the Rim to Rim of the Grand Canyon), serving together, getting together with family, friends, and neighbors, going on our dates every week (we love hikes, mini golfing, picnics at the park, shopping, book stores to sketch or draw or even indoor skydiving). We love to laugh, dance, work, dream, serve, and play together. We just love being together and with loved ones. We are religious and belong to The Church of Jesus Christ of Latter-day Saints. Our relationship with God and His Son is of utmost importance to us and only strengthens our relationship with each other and others. We love serving and helping any way we can, especially in the children's and youth ministry.

MEET KIMEE

by Destin

Kimee is a very special woman who thrives on improving others' lives. As a wife, sister, bonus mother, therapist, or friend, she is always willing to go the extra mile to help. She has such a joyful, and contagious, disposition and after interacting with Kimee, you will have this goodness in your heart that may be difficult to describe. Kimee also loves to have fun, she likes to chuckle at even simple things. She leads a very healthy lifestyle, regularly engaging in physical activity, but also creating healthy meals for her family, hoping to not only nourish them, but "zing" their taste buds. Kimee makes friends very easily and has many long-term friends.

Kimee has a deep, affectionate place in her heart for children. This is most evident with her three-year-old niece. Kimee loves to hold and be with her and just a picture of something silly her niece has done brightens Kimee's day. Kimee is also a woman of tremendous faith. This strength sustained her lengthy wait for the right opportunity to marry. And even though she's unable to safely bear children herself, she holds a strong belief that she will be blessed to raise a child from birth in this life. I count each day as a blessing to be with Kimee.

Celebrating Cecily's Birthday

Community *and* Home

We live in Arizona in a four bedroom home. The backyard is a good size, and we have a fire pit, which is really fun in the winter for making smores as a family.

We live in one of the most wonderful neighborhoods! We love our neighbors, and everyone is so friendly. We love to plan get-togethers for dinner, games, to make smores in the fire pit! There are a lot of children in our neighborhood and the many parks and the lake are a very close walk from our house. We have access to many more parks, museums, gardens, theatrical venues, professional sports stadiums, orchards to pick fresh produce, schools, libraries, and much more only about 15-30 minutes away.

Our Friends

We have a lot of close friends, particularly through church. Many are diverse families, and many have adopted children and grandchildren.

We love our neighbors and love to have them over! We love to go on double dates with friends!

Why Adoption

We cannot wait to raise a child from birth together, nurturing a precious soul in love. Destin has always desired at least six children. Kimee knew what she wanted to be when she "grew up," since she was a little girl: a wife and a mother. Now that we are gratefully and happily married, we want to add to our family joy through adoption, as Kimee is unable to physically and safely have biological children. We have looked into other options like foster care or surrogate mothers, but after much prayer and discussions in faith, we feel that adoption is the way we should make this dream of ours come true.

We Promise

- We promise to give this child the best thing we can: LOVE.
- We promise to help make the journey of this child the best for her/him by always being honest and true about their adoption story.
- We promise to continue to educate and improve ourselves to be the best parents we can to this child.
- We promise to do what is best for this child, and hope that includes an open adoption with you.
- We promise to work with you to help this child feel love and belonging.
- We know we are not perfect, but we promise to keep our relationship with God and each other to help raise this child in love and righteousness.

We love to serve others, especially at Christmas time or New Years. We love making homemade peanut butter balls and taking them to friends, neighbors, and family.

We meet with Kimee's sister and her precious family at least once a month for dinner and games!

OUR Family Traditions

We love to go up to Kimee's mother's house to help plant her big garden every Memorial weekend.

Love

We meet one or both of Destin's brothers, their spouses, and their children at his parent's home on Sundays for dinner and games monthly.

Over fall break we try to do a bigger family vacation. We rented a beach house in California last year!

Thank you

Thank you so very much for taking time to read and look at our profile book to get to know more about us. Adoption truly can be beautiful and a miraculous blessing for not only the child, but for the birth parents to know that their precious baby will be loved and nurtured. We feel greatly honored and humbled to be considered by you.

With love,

Destin & Kimee
