

Arun
and
Emm

Hello!

We're Arun and Emm. Thank you for considering us to adopt your child. We have wanted to start a family together since we met. We want to adopt because we believe that every child deserves a happy and supportive home, and we want to grow our family. We have family and friends who have adopted children, and we have watched their lives transform in beautiful ways. We can offer a child a loving, warm, bright, and nurturing home to grow up in.

Our Story

We met in March 2017 and married in October 2019. Our wedding was a beautiful ceremony surrounded by family and friends. We have a deep and caring relationship, and we enjoy spending a lot of time together. We believe the foundation of a happy marriage is love and trust.

About Emm

Emm is a dancer and writer. She loves to garden and grows a bountiful vegetable and flower garden every year. She is very involved in the community and enjoys volunteering for many organizations.

About Arun

Arun is a computer engineer. He loves to cook and is famous among friends and colleagues for his pecan pies. He enjoys writing science fiction in his free time and watching films.

Our Home and Community

We live in sunny New Mexico in a cozy and bright three bedroom, two bathroom house with an airy kitchen and a dance studio in the backyard. We are half a bock away from a big grassy park and walking distance from schools, a library, and many fun shops and restaurants. The park near our house has foodtrucks and music in the summer.

We know and like our neighbors, and Emm's parents live 15 minutes away.

The bottom left photo on the previous page is of our house. The top right photo is of Emm's dance studio in our backyard, and the bottom right photo is of our backyard with Emm's luscious garden.

Our Family and Friends

We are blessed to both come from loving families. Arun's parents live in Michigan. His dad came to the US from India when he was a young man. Arun's brother's family also lives in Michigan and his sister's family lives in California.

Below is Arun's family pictured at a reunion in Michigan, including his parents, siblings, nephews and nieces.

Above is a photo of Emm's family at Thanksgiving dinner, including her parents, siblings, and nephew, as well as family friends.

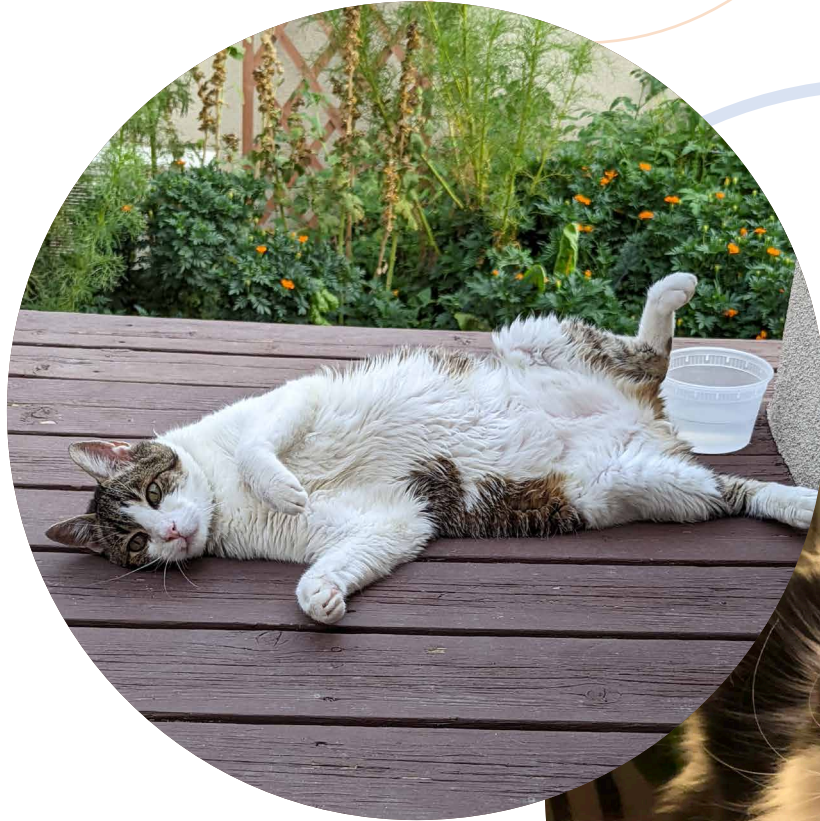

Emm's family all live in New Mexico and regularly get together for birthdays and holidays. We also live near several good friends who we see often.

Above is Emm and Arun with Arun's sister and brother-in-law. To the right is Emm and her best friend, who lives nearby.

Our Pets

To the left is Doozle rolling around on the deck, and to the right is Sigyn celebrating Mardi Gras.

We have two cats: Enkidu (whom we call Doozle for short) and Sigyn. Enkidu is a big goofy cat who loves to snuggle and makes us laugh. Sigyn is a pretty stray we adopted who loves attention and likes to sit close. Both cats fill our home with joy.

Our Hobbies

We have many activities we like to do together, like visiting Emm's family cabin in the mountains, visiting Arun's family in Michigan, going to the zoo, or trying new restaurants. We also have several hobbies we enjoy individually; Emm is involved with the local Master Gardeners. Arun loves to plan themed dinner parties and also writes science fiction.

The background is the cliffs near Emm's family cabin. In the top right insert photo, Emm tries a donut from a local restaurant, and in the bottom insert photo, Arun is preparing several plates for a themed dinner party.

Fun Facts about Us

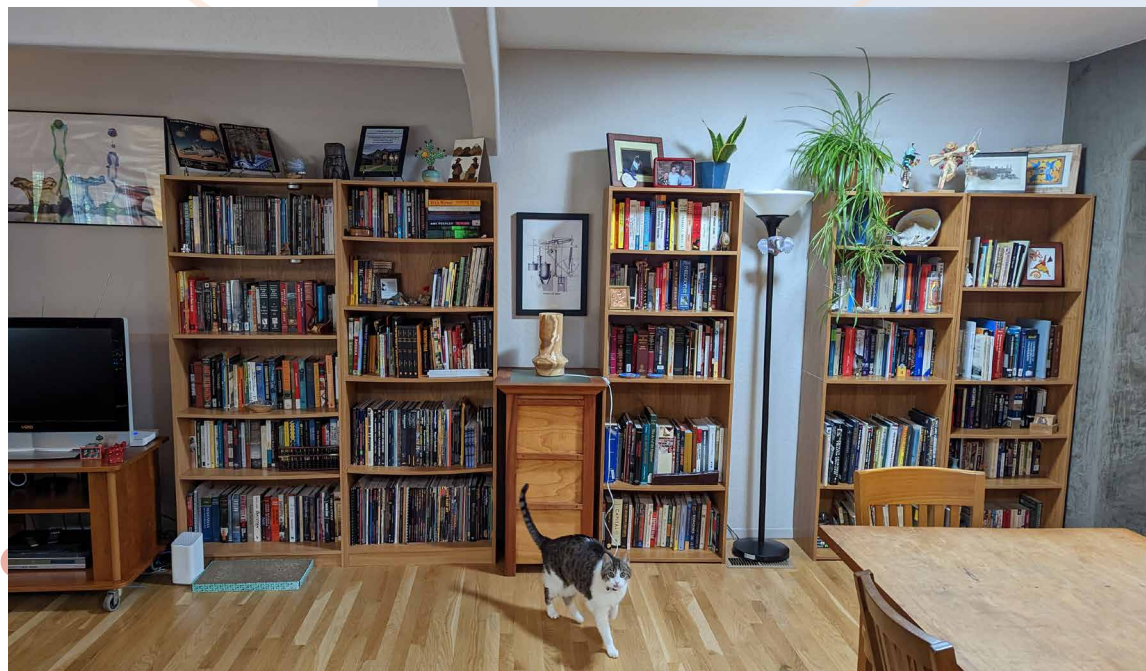

1. Arun won first place in the State Fair pecan pie competition.
2. Emm has been to all 50 states.
3. Arun has several interesting kitchen appliances, like an ultrasonic wand and a sous vide.
4. Emm has published two books and has worked as a magazine editor.
5. Arun and Emm have more than 1,200 books in their home.
