

JEN & MARTHA

Hi!

We are Martha and Jen, and we are so excited to connect with you. We live in sunny Arizona with our dogs and horses. Firstly, we want to express our heartfelt gratitude for considering us as potential parents for your precious baby. We know that life isn't always fair, and can be unkind, but we would love to welcome your baby into our loving home. We will care, support, and love them unconditionally as they find their way through this life.

We understand that the decision you are facing is incredibly difficult and filled with many emotions; we also understand that we can in no way comprehend the depth of what you are going through, but want you to know, if chosen, that we would be here for you every step of the way, as much or as little as you would like.

Love,

MARTHA & JEN

ABOUT US

We met in high school at basketball tryouts and became friends right away. Inspired by the movie Grease, we called ourselves the Pink Ladies. After graduation, we stayed in touch and eventually fell in love. Now, we've been together for 6 years!

We always have fun and laugh together, often with friends and family. Our wedding is a perfect example – it was in no way

traditional – we held it at a ranch with food trucks, games, and even a mechanical bull. Otherwise, we live simple lives, surrounded by animals and are often outdoors. We enjoy spending time with loved ones, attending sporting events and concerts. As Christians, we turn to God during tough times and believe whatever hill we must climb that He is with us, guiding our path and leading us to exactly where we need to be.

ABOUT

MARTHA

BY JEN

Martha is a glass half full kind of gal with a heart of gold that naturally sees the best in everyone and everything. She loves to “make things look pretty” by planting new flowers, trees or even painting something in the house. Anyone that has ever met Martha always said how beautiful, loving, helpful and hardworking she is, and I can confirm every word of it. She loves to laugh, which is why she loves me 😊. Her faith in God keeps her grounded and allows her to take on whatever obstacle’s life throws at her. Good thing for her, she’s a great athlete and catches all that is thrown at her and takes it like a champ. I’m lucky to have her as my wife and I know she will be the most loving mother, teaching our future child the value of family and faith.

ABOUT

JEN

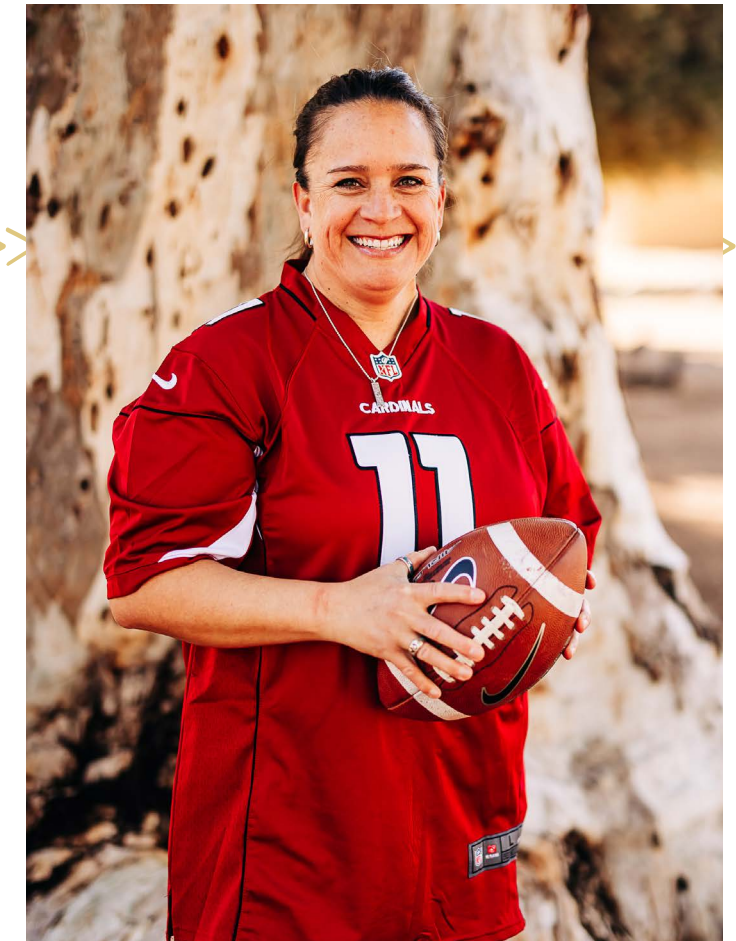

BY MARTHA

Jen is a caring woman known for her amazing bear hugs. She has an outgoing personality that naturally makes friends wherever she goes and people love being around her, but time with her family is always the most important to her. A hard worker, avid athlete and sports fan, Jen has loved sports since long before her time playing softball in college. At an early age, Jen found her passion for nature and animals. Earning a college degree in Animal Science, there’s no doubt her love for animals will be passed on to our child one day. Always making everyday life fun, you will always find Jen singing and dancing before work, and it’s impossible not to join in. Overall, Jen is a very loving person and I know she will make an amazing mom.

OUR HOME & COMMUNITY

Our home is 3 bedrooms on an acre of land located in a very safe town in Arizona. We are surrounded by beautiful mountains and are within a few miles of great schools, parks, and a public pool with a splash pad. The baby's room is painted a neutral color and looks out into the back yard where there is a beautiful tree and a yellow bell bush where the hummingbirds come to collect nectar.

OUR PETS

We have a total of 4 dogs - Buster, Walter, Bella, and Luna - as well as two horses named Canela and Meka. Our dogs have always been great with kids and enjoy spending time with them. Whether it's running and playing in our backyard or going for walks in the park with our nieces and nephew. Their absolute favorite activity is cuddling with the kids on our couch, snacking on popcorn, and watching a movie together.

OUR EXTENDED FAMILY

By Martha: I am close to my family, which includes my mom, brother, and niece. I lost my dad to cancer 5 years ago and my grandmother a year later. I spend most of my time with my mom and brother and we always have a great time together. We have a large family on my mom's side, and we often gather for birthdays and holidays, where there is plenty of storytelling, food, and laughter.

By Jen: I grew up on a 40-acre ranch with horses, cows, pigs, chickens, dogs, and cats. We are a Mexican family who loves gathering there for laughter, food, music, and sports. I see my sister and her family regularly, we all love being outdoors. My twin brother and sister-in-law live four hours away, but we stay connected through texts and phone calls.

“My Grandparents were always reminding us as kids, to always be proud of who we are and where we came from, and that family is most important. I still believe that today.”

WHY WE ARE ADOPTING

We tried for the last two years to have biological children, but we both experienced infertility, resulting in hysterectomies. As a couple, we have always had a dream of becoming parents, and adoption is our path to make that dream come true. We are committed to building our family and becoming parents through adoption.

“Family comes first.”
-Martha and Jen
